INFORMATION FOR HEALTHCARE PROFESSIONALS

EVERYTHING WE DO IS AIMED TO IMPROVE
PEOPLE'S WELLNESS AND BEAUTY

Italian Innovators in Aesthetic Excellence

Over **2.500.000** yearly treatments are performed globally, improving lives and enhancing well-being.

Presence in more than **80 countries**, demonstrating our commitment to serving diverse communities worldwide.

Proudly developed and **manufactured in Italy**, our products embody the tradition of Italian craftsmanship and excellence.

About Company

At CMed Aesthetics, we are revolutionizing the fields of aesthetic medicine, dermatology and plastic surgery. Founded at the intersection of pharmaceutical expertise and commercial innovation, our company is dedicated to pushing the boundaries of possibility.

With a keen focus on research and development, we have introduced several patented medical devices alongside a bi-phasic patented formulation technology and a pioneering sterilization method, all of which are reshaping industry standards.

We invest heavily in research and development, ensuring that our products remain at the forefront of scientific advancement. Safety and efficacy are paramount in everything we do and we work tirelessly to meet the evolving needs of healthcare professionals and patients alike.

Our vision is to be a catalyst for positive change in the industry, driving innovation and setting new standards of excellence.

ARES[®]

Advanced Regenerative
Esthetics Solution

MESOTHERAPY LINE

HYALURONIC ACID

ARES[®] range is based on a mixture of 3 DIFFERENT MOLECULAR WEIGHTS of hyaluronic acid, customized by an Italian pharmaceutical company.

The hyaluronic acid we used is CE-marked and FDA certified to be used as injectable.

THE REAL INNOVATION

of our patented production method is based on a technique to filter the hydrogels under a vacuum, without exposing them to high temperatures.

This means the hyaluronic acid, vitamins, and peptides we mix in our formulations are preserved during the whole production chain, to guarantee high standards of quality and shelf life stability.

AA

ANTI-AGE

Used on **AGED** and **WRINKLED SKIN**, it restores elasticity by stimulating the synthesis of collagen, hyaluronic acid and elastin.

**TREATMENT AREAS** →**PROCEDURE:**

3-4 sessions
every 15-20 days

**RECOMMENDED
QUANTITY:** 2 mL
for each area.

The superficial texture of the skin is improved thanks to the cellular proliferation and the botox-like effect of **PENTAPEPTIDE-3**.

OLIGOPEPTIDE-34 improves the skin colour and luminosity and the **MYRISTOYL PENTAPEPTIDE-8** enhances the skin reparation and microcirculation.

TRIPLEPTIDE-29 has been shown to significantly increase collagen synthesis and repair skin.

HYALURONIC ACID in three different molecular weight improves the performance of the peptides and reduces the appearance of fine lines and wrinkles for a deep plumping, smoothing and moisturising effect on the skin³.

MAIN INGREDIENTS:

- Hyaluronic acid 0,5 MDa
 - Hyaluronic acid 0,25 MDa
 - Hyaluronic acid 1 MDa
 - Acetyl Tetrapeptide-11
 - Pentapeptide-3
 - Oligopeptide-34
 - Copper Tripeptide-34
 - Tripeptide-29
 - Myristoyl Pentapeptide-8
 - Pal-Tetrapeptide-7
- (30 mg/mL)

**ELECTROPORATION**

AK Dermo Restructurant

Developed as a metabolic stimulator and moisturiser for the treatment of **TIRED LOOKING SKIN** and **ALL TYPES OF TISSUE SCARRING**.

TREATMENT AREAS →

PROCEDURE:
3-4 sessions
every 15-20 days

RECOMMENDED QUANTITY: 2 mL
for each area.

SUCCINIC ACID is produced and concentrated in the mitochondria and its primary biological function is that of a metabolic intermediate.

Many metabolic pathways like metabolism of carbohydrates, amino acids, fatty acids, cholesterol, and heme, rely on the temporary formation of succinate¹⁻².

It's easy to understand that at the cellular level, succinic acid accelerates metabolic processes that promote skin rejuvenation, and can, ultimately, help increase skin firmness and elasticity.

The stimulating effect is completed by a pool of 14 **NATURAL AMINOACIDS** and a mixture of high and low molecular weight hyaluronic acids.

MAIN INGREDIENTS:

- Hyaluronic acid 0,5 MDa
 - Hyaluronic acid 1 MDa
 - Succinic acid
 - Proline
 - Lysine
 - Leucine
 - Isoleucine
 - Hydroxyproline
 - Glycine
 - Valine
 - Threonine
 - Phenylalanine
 - Methionine
 - Glutamic acid
 - Arginine
- (20 mg/mL)

1 box contains
4 vials x 4 mL each

AO ANTI-OXIDANT

This product is an anti-aging treatment. Used for **PHOTO** and **CHRONO AGEING, SKIN WITH LACK OF RADIANCE**, it restores the skins natural balance.

TREATMENT AREAS →

PROCEDURE:
3-4 sessions
every 15-20 days

**RECOMMENDED
QUANTITY:** 2 mL
for each area.

The antioxidant formulation is a mix of powerful active principles with free radical scavenging, anti-inflammatory activity and superficial blood stream stimulation.

CURCUMIN improves collagen deposition and increases fibroblast and vascular density⁴.

FERULIC ACID inhibits enzymes that catalyze free radical generation and enhances scavenger enzymes' activity. It has a protective role for the main skin structures: keratinocytes, fibroblasts, collagen, elastin. It inhibits melanogenesis, enhances angiogenesis, and accelerates wound healing⁵.

SAFRANAL promotes the inhibition of the expression of inflammation markers such as interleukin showing a strong anti-inflammatory activity⁶.

MAIN INGREDIENTS:

- Hyaluronic acid 0,5 MDa
 - Hyaluronic acid 1 MDa
 - Ferulic acid
 - Eugenol
 - Ascorbyl glucoside
 - Safranal
 - Riboflavin
 - Curcumin
- (20 mg/mL)

1 box contains
4 vials x 4 mL each

MICRONEEDLING DEVICES:

DERMA PEN

MULTI-NEEDLE

ELECTROPORATION

HB HAIR BOOSTER

A complex solution that is used to treat the most common scalp diseases. Working on **HAIR REGROWTH, HAIR LOSS PREVENTION**, microcirculation and micronutrients supplementation.

TREATMENT AREAS →

PROCEDURE:
3-4 sessions
every 15-20 days

**RECOMMENDED
QUANTITY:** 2 mL
for each area.

Growth factor complex made of CG- α FGF [Sh-Polypeptide-11], CG-IGF1 [Sh-Oligopeptide-2], CG-KGF [Sh-Polypeptide-3], CG-Thymosin [Sh-Oligopeptide-4] and Fucoïdan from **MOZUKU SEAWEED** promotes hair growth, bulb stimulation and follicles revitalization.

SWERTIA JAPONICA EXTRACT assists the inhibition of 5 α -reductase and the production of DHT preventing hair loss while **BIOTIN** is essential for the growth of healthy hair.

Growth factors CG-bFGF [Sh-Polypeptide-1], CG-VEGF [Sh-Polypeptide-9], CG-Copper [Copper Tripeptide-1] and **ARGININE** increase the microcirculation of the hair bulb and follicles, strengthening the hair.

VITAMINS B1, B5, B6, KERATIN and **FERROUS GLUCONATE** provide the energy to stimulate the hair growth.

MAIN INGREDIENTS:

- Hyaluronic acid 0,25 MDa
 - Hyaluronic acid 0,5 MDa
 - Sh-Polypeptide-11
 - Sh-Oligopeptide-2
 - Sh-Polypeptide-3
 - Sh-Oligopeptide-4
 - Sh-Polypeptide-1
 - Sh-Polypeptide-9
 - Copper Tripeptide-1
 - Mozuku Seaweed extract
 - Swertia Japonica extract
 - Biotin
 - Hydrolyzed keratin
 - Vitamins B1, B5, B6
 - Arginine
 - Ferrous gluconate
- (20 mg/mL)
